Modules

1 Search Module:

This module handles the functionality of the search page where users can input search criteria and initiate a search.

2 Database Module:

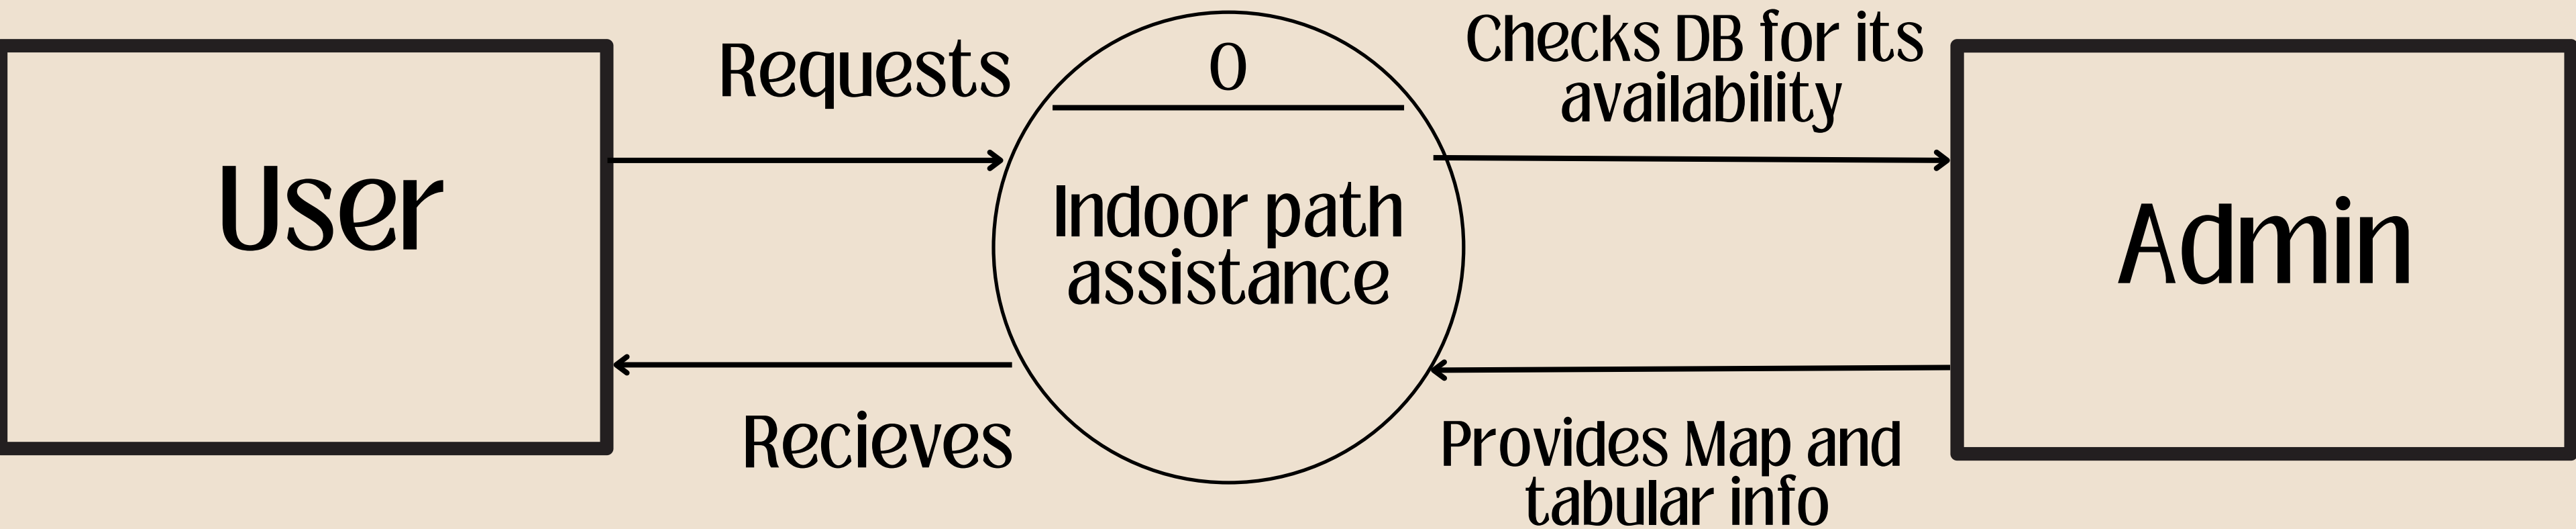

This module interacts with the database (XAMPP) to manage data storage, retrieval, and updates.

3 Result Display Module:

This module is responsible for displaying the search results to the user. Additionally, it interfaces with the map display module to incorporate a visual representation of the search results.

DATABASE DESIGN

Database design is done using XAMPP, Sublime text

There are 3 tables :- routewiz_1_, extras, dept

routewiz_1_- Attributes: {Dept_ID(FK), Lh_no, class_name, floor_no, building_name }

extras:- Attributes: { Dept_ID(FK), class_name, floor_no, building_name }

dept:- Attributes: { Dept_ID(PK), Dept_name }

QR CODE

A woman with short brown hair, wearing a black blazer over a light blue shirt and black pants, stands in a library. Behind her are blue bookshelves filled with books. To her right is a wooden chair and a wooden table. On the wall is a round clock showing approximately 10:10. The scene is dimly lit with soft shadows.
